NORTH CAROLINA

DEPARTMENT OF CORRECTION

STATISTICAL ABSTRACT

QUARTERLY

JULY THROUGH SEPTEMBER

1986

JAMES G. MARTIN
GOVERNOR

AARON J. JOHNSON
SECRETARY

Table of Contents

Page

Historical Note ii

A. Admissions

1. Sentence length 1
2. Crime Category 2
3. County of conviction 3
4. Race and sex 7
5. Age at admission 8
6. Education grade 9
7. Marital status 10
8. Admitting location 11

B. Separations

1. Sentence length 14
2. Crime category 15
3. County of conviction 16
4. Race and sex 20
5. Age at separation 21
6. Education grade 22
7. Marital status 23
8. Separation location 24

Page

C. Population resident at period end - inmate count

1 Sentence length 27
2. County of conviction 29
3. Race and sex 37
4. Current age 39
5. Education grade 41
6. Marital status 43

D. Population resident at period end - percentage

1. Sentence length 45
2. Race and sex 47
3. Current age 49
4. Education grade 51
5. Marital status 53

Appendix: Definition of terms 55

HISTORICAL NOTE

The Statistical Abstract for the Division of Prisons was published continuously from 1969 until the second quarter of 1984. Publication was interrupted at that time because of the conversion to a different computer. This publication is an interim version which provides tables roughly comparable to the first three sections of the old Abstract: admissions, separations, and stock population. An expanded version is planned which will include sections on paroles, parole revocations, escapes, captures and rule violations.

Resumption of publication and distribution begins with the 1984 annual edition and the third quarter of 1985 quarterly edition. A few copies of the "missing" quarterly issues will be available for research purposes.

How the revised Abstract differs from the original version.

A. Admissions tables

1. New columns have been added to provide subtotals for new admissions and probation revocations (adding misdemeanants and felons together) and for prison commitments (adding new admissions and probation revocations together).

2. To make room for those additions, three categories of admission type no longer appear as separate columns (captures, parole, and conditional release revocations). Instead, they are combined into a single category: re-entries.

B. Separations tables

1. New columns have been added to provide subtotals for sentence completions: discharges and release by parole (including conditional release). Subtotals have also been included which add together misdemeanants and felons.

2. To make room, four categories of separation (escape, court order, death, and pardon) have been combined as "other separations." Conditional release has been incorporated with paroles.

C. Tables for population resident at period end

Each table has been expanded to cover two pages for each one of the original. This has been done to allow each table to be a cross-tabulation against crime category. The old version was a cross tabulation against sentence length. The first page in each pair provides the number of inmates serving time for various assaultive crimes and crimes against public order. The second page enumerates property crimes and also has subtotals for felons and misdemeanants as well as a grand total for all crime types.

D. Changes common to all tables

1. Crimes have been grouped into three categories: assaultive, property, and public order. Larceny has been separated from breaking and entering (which still may contain larceny convictions when consolidated for judgment). Fraud has been identified as a separate category instead of being included with "others."

2. The table identifying the sentencing court (Superior, District, etc.) has been eliminated.

3. Subtotals by race and by sex have been added to the race/sex table.

4. Age has been summarized by five-year age categories. Age is computed more accurately (as of the date of admission or release; formerly it was computed as of the date of the end of the reporting period).

5. Unsentenced inmates (safekeepers and pre-sentence diagnostic cases) are identified separately.

E. Percentage tables

A section has been added which provides percentages rather than counts of inmates. These are provided for five of the six tables of resident population (no percentage table by county of conviction was established). Such tabulations facilitate analysis of the distribution of other variables, such as age, race, and sex, by crime category. Most property offenders, for example, have never been married; the opposite is true of DWI and traffic offenders.

Appendix: Definition of Terms

"Sentence length" is the total consecutive sentence imposed by the court as of the date of the computer search which creates data for the Abstract. Each sentence length category (e.g. 1 to 2 years) includes sentences exactly matching the upper limit (2 years), but sentences equal to the lower limit (1 year) belong to the smaller category. The exception to this last statement is the category 10 years to live: life sentences belong to the category life/death.

"Crime" is the offense for which the offender is now serving time, in the case of resident tables. For admissions and separations it is the most serious crime at the time of entry to prison as a new admission or probation revocation. Determination of felon/misdemeanant, on the other hand, is always based upon the initially most serious crime. At any given time about one percent of inmates admitted as felons are serving time as misdemeanants. About three percent of such felons end their prison terms as misdemeanants.

For the resident population tables the crime categories have been consolidated somewhat to conserve space:

Crime Category in "Resident" Tables	Corresponding Categories in "Admission" and "separation" tables
Homicide	Murder 1st degree, murder 2nd degree, manslaughter
Rape and sexual assault	Rape, sexual assault, sex crimes miscellaneous
Other assaultive	Kidnapping and abduction, assault
Other public order	Abandonment and non-support, habitual drunk, others
Burglary, B&E	Burglary, breaking and entering
Larceny and auto theft	Larceny, auto theft
Forg., Chks, fraud, other property	Forgery, worthless checks, fraud, burnings, trespass

"County of conviction" refers to that conviction associated with the most serious crime at the time of entry to prison.

"Age" is determined at the time of admission or separation, respectively, for those tables. For resident tables it is computed as of the period ending date for the report.

"Admitting location" is the prison unit to which the inmate was admitted originally. Thus, for a capture, it refers to his original reception center, not the first

unit he was taken to upon return to the Department of Correction.

"Separation location" is the prison unit where he was housed most recently as determined at the time of the computer run. In the following circumstance it is not actually the unit from which he was separated. If he was revoked from a parole or captured after an escape, the record of his actual separation location will have been disturbed and the information replaced by his new location.

When "not reported" occurs in a table such as sentence length or crime, it counts inmates for which the information had not been obtained by the time of the computer run. Some inmates, for example, will become unavailable for intake processing because of a trial on additional charges.

Tables A1-A8: Admissions

"New admissions" includes unsentenced inmates (presentence diagnostic cases and safekeepers) and prisoners newly committed by the court directly to prison (including to a "split sentence" of prison and probation). If the prisoner was already under parole supervision at the time he reappears in prison, he is not counted as a "new admission" for his reappearance (presumably for a parole revocation), even if he is being given a new sentence. Instead, he will be counted as a "re-entry." If a prisoner is released from prison upon successful appeal of his conviction and is again sentenced to prison upon reconviction, he will appear twice as a new admission for the same crime(s). The same is true for PSD's and safekeepers if they return to prison after sentencing.

Tables B1-B8: Separations

"Discharge" includes unsentenced inmates and prisoners who complete all of their sentence. A person who is paroled, revoked and then completes his sentence will appear twice in these tables. He will be counted first under parole releases and then as having been discharged.

"Parole" includes a special kind of parole called conditional release, which is granted mainly to those designated by the court as committed youthful offenders. It also includes those re-released as the result of the rescinding of a temporary parole revocation. Other categories of parole include those under the Fair Sentencing Act (even though these are mandatory) and special one-third paroles, even though these are not supervised by parole officers.

"Other separations" includes deaths, escapes, and court-ordered releases.

F. Rule violations 57

Appendix: Definition of terms 69

HISTORICAL NOTE

Beginning with the 1986 annual issue, two additional Sections appear in the Abstract. The first of these consists of two tables of work release terminations. The second section is a table of rule violations.

Also beginning with the 1986 annual issue, data on inmates with multiple crimes are tabulated differently. For each such inmate, the crime carrying the longest sentence is the one chosen to characterize that inmate. The crime itself, its categorization as a felony or misdemeanor, and the county of conviction for that crime are used then to build the corresponding tables.

Appendix: Definition of Terms

"Sentence length" is the total consecutive sentence imposed by the court as of the date of the computer search which creates data for the Abstract. Each sentence length category (e.g. 1 to 2 years) includes sentences exactly matching the upper limit (2 years), but sentences equal to the lower limit (1 year) belong to the smaller category. The exception to this last statement is the category 10 years to live: life sentences belong to the category life/death.

"Crime" is the offense for which the offender is now serving time, in the case of resident tables. For admissions and separations it is the most serious crime at the time of entry to prison as a new admission or probation revocation. Determination of felon/misdemeanant, on the other hand, is always based upon the initially most serious crime. At any given time about one percent of inmates admitted as felons are serving time as misdemeanants. About three percent of such felons end their prison terms as misdemeanants.

For the resident population tables the crime categories have been consolidated somewhat to conserve space:

Crime Category in "Resident" Tables	Corresponding Categories in "Admission" and "separation" tables
Homicide	Murder 1st degree, murder 2nd degree, manslaughter
Rape and sexual assault	Rape, sexual assault, sex crimes miscellaneous
Other assaultive	Kidnapping and abduction, assault
Other public order	Abandonment and non-support, habitual drunk, others
Burglary, B&E	Burglary, breaking and entering
Larceny and auto theft	Larceny, auto theft
Forg., Chks, fraud, other property	Forgery, worthless checks, fraud, burnings, trespass

"County of conviction" refers to that conviction associated with the most serious crime at the time of entry to prison.

"Age" is determined at the time of admission or separation, respectively, for those tables. For resident tables it is computed as of the period ending date for the report.

"Admitting location" is the prison unit to which the inmate was admitted originally. Thus, for a capture, it refers to his original reception center, not the first

unit he was taken to upon return to the Department of Correction.

"Separation location" is the prison unit where he was housed most recently as determined at the time of the computer run. In the following circumstance it is not actually the unit from which he was separated. If he was revoked from a parole or captured after an escape, the record of his actual separation location will have been disturbed and the information replaced by his new location.

When "not reported" occurs in a table such as sentence length or crime, it counts inmates for which the information had not been obtained by the time of the computer run. Some inmates, for example, will become unavailable for intake processing because of a trial on additional charges.

Tables A1-A8: Admissions

"New admissions" includes unsentenced inmates (presentence diagnostic cases and safekeepers) and prisoners newly committed by the court directly to prison (including to a "split sentence" of prison and probation). If the prisoner was already under parole supervision at the time he reappears in prison, he is not counted as a "new admission" for his reappearance (presumably for a parole revocation), even if he is being given a new sentence. Instead, he will be counted as a "re-entry." If a prisoner is released from prison upon successful appeal of his conviction and is again sentenced to prison upon reconviction, he will appear twice as a new admission for the same crime(s). The same is true for PSD's and safekeepers if they return to prison after sentencing.

Tables B1-B8: Separations

"Discharge" includes unsentenced inmates and prisoners who complete all of their sentence. A person who is paroled, revoked and then completes his sentence will appear twice in these tables. He will be counted first under parole releases and then as having been discharged.

"Parole" includes a special kind of parole called conditional release, which is granted mainly to those designated by the court as committed youthful offenders. It also includes those re-released as the result of the rescinding of a temporary parole revocation. Other categories of parole include those under the Fair Sentencing Act (even though these are mandatory) and special one-third paroles, even though these are not supervised by parole officers.

"Other separations" includes deaths, escapes, and court-ordered releases.

C. Population resident at period end - inmate count

1. Sentence length 27
2. County of conviction 29
3. Race and sex 37
4. Current age 39
5. Education grade 41
6. Marital status 43

D. Population resident at period end - percentages

1. Sentence length 45
2. Race and sex 47
3. Current age 49
4. Education grade 51
5. Marital status 53

E. Work Release Terminations

1. Outcome by time on work release 55
2. Outcome by how placed 56

F. Rule violations 57

Appendix: Definition of terms 69

HISTORICAL NOTE

Beginning with the 1986 annual issue, two additional Sections appear in the Abstract. The first of these consists of two tables of work release terminations. The second section is a table of rule violations.

Also beginning with the 1986 annual issue, data on inmates with multiple crimes are tabulated differently. For each such inmate, the crime carrying the longest sentence is the one chosen to characterize that inmate. The crime itself, its categorization as a felony or misdemeanor, and the county of conviction for that crime are used then to build the corresponding tables.

Appendix: Definition of Terms

"Sentence length" is the total consecutive sentence imposed by the court as of the date of the computer search which creates data for the Abstract. Each sentence length category (e.g. 1 to 2 years) includes sentences exactly matching the upper limit (2 years), but sentences equal to the lower limit (1 year) belong to the smaller category. The exception to this statement is the category 10 years to life: life sentences belong to the category life/death.

"Crime" (beginning with the 1986 Annual issue) is the offense possessing the longest sentence length, in the case of multiple crimes. Determination of felon/misdemeanant and county of conviction is also based on that same crime.

"Age" is determined at the time of admission or separation, respectively, for those tables. For the resident tables it is computed as of the period ending date for the report.

For the resident population tables the crime categories have been consolidated somewhat to conserve space.

Crime Category in "Resident" Tables	Corresponding Categories in "Admission" and "Separation" Tables
Homicide	Murder 1st degree, murder 2nd degree, manslaughter
Rape and sexual assault	Rape, sexual assault, and sex crimes miscellaneous
Other assaultive	Kidnapping and abduction, assault
Other public order	Abandonment and non-support, habitual drunk, others
Burglary, B&E	Burglary, breaking and entering
Larceny and auto theft	Larceny, auto theft
Forg., Checks, fraud, other property	Forgery, worthless checks, fraud, burnings, trespass

"Admitting location" is the prison unit to which the inmate was admitted originally. Thus, for a capture, it refers to his original reception center, not the first

unit he was taken to upon return to the Department of Correction.

"Separation location" is the prison unit where he was housed most recently as determined at the time of the computer run. In the following circumstances it is not actually the unit from which he was separated: if he was revoked from a parole or captured after an escape, the record of his actual separation location will have been disturbed and the information replaced by his new location.

When "not reported" occurs in a table such as sentence length or crime, it counts inmates for which the information had not been obtained by the time of the computer run. Some inmates, for example, will become unavailable for intake processing because of a trial on additional charges.

Tables A1-A8: Admissions

"New admissions" includes unsentenced inmates (presentence diagnostic cases and safekeepers) and prisoners newly committed by the court directly to prison (including to a "split sentence" of prison and probation). If the prisoner was already under parole supervision at the time he reappears in prison, he is not counted as a "new admission" for his reappearance (presumably for a parole revocation), even if he is being given a new sentence. Instead, he will be counted as a "re-entry". If a prisoner is released from prison upon successful appeal of his conviction and is again sentenced to prison upon reconviction, he will appear twice as a new admission for the same crime(s). The same is true for PSD's and safekeepers if they return to prison after sentencing.

Tables B1-B8: Separations

"Discharge" includes unsentenced inmates and prisoners who complete all of their sentence. A person who is paroled, revoked and then completes his sentence will appear twice on these tables. He will be counted first under parole releases and then as having been discharged.

"Parole" includes a special kind of parole called conditional release, which is granted mainly to those designated by the court as committed youthful offenders. It also includes those re-released as the result of the rescinding of a temporary parole revocation. Other categories of parole include those under the Fair Sentencing Act (even though these are mandatory) and special one-third paroles, even though these are not supervised by parole officers.

"Other separations" includes deaths, escapes, and court-ordered releases.

5. Education grade 41
6. Marital status 43

D. Population resident at period end - percentages

1. Sentence length 45
2. Race and sex 47
3. Current age 49
4. Education grade 51
5. Marital status 53

E. Work Release Terminations

1. Outcome by time on work release 55
2. Outcome by how placed 56

F. Rule violations 57

Appendix: Definition of terms 69

HISTORICAL NOTE

Beginning with the 1986 annual issue, two additional Sections appear in the Abstract. The first of these consists of two tables of work release terminations. The second section is a table of rule violations.

Also beginning with the 1986 annual issue, data on inmates with multiple crimes are tabulated differently. For each such inmate, the crime carrying the longest sentence is the one chosen to characterize that inmate. The crime itself, its categorization as a felony or misdemeanor, and the county of conviction for that crime are used then to build the corresponding tables.

Appendix: Definition of Terms

"Sentence length" is the total consecutive sentence imposed by the court as of the date of the computer search which creates data for the Abstract. Each sentence length category (e.g. 1 to 2 years) includes sentences exactly matching the upper limit (2 years), but sentences equal to the lower limit (1 year) belong to the smaller category. The exception to this statement is the category 10 years to life: life sentences belong to the category life/death.

"Crime" (beginning with the 1986 Annual issue) is the offense possessing the longest sentence length, in the case of multiple crimes. Determination of felon/misdemeanant and county of conviction is also based on that same crime.

"Age" is determined at the time of admission or separation, respectively, for those tables. For the resident tables it is computed as of the period ending date for the report.

For the resident population tables the crime categories have been consolidated somewhat to conserve space.

Crime Category in "Resident" Tables	**Corresponding Categories in "Admission" and "Separation" Tables**
Homicide	Murder 1st degree, murder 2nd degree, manslaughter
Rape and sexual assault	Rape, sexual assault, and sex crimes miscellaneous
Other assaultive	Kidnapping and abduction, assault
Other public order	Abandonment and non-support, habitual drunk, others
Burglary, B&E	Burglary, breaking and entering
Larceny and auto theft	Larceny, auto theft
Forg., Checks, fraud, other property	Forgery, worthless checks, fraud, burnings, trespass

"Admitting location" is the prison unit to which the inmate was admitted originally. Thus, for a capture, it refers to his original reception center, not the first

unit he was taken to upon return to the Department of Correction.

"Separation location" is the prison unit where he was housed most recently as determined at the time of the computer run. In the following circumstances it is not actually the unit from which he was separated: if he was revoked from a parole or captured after an escape, the record of his actual separation location will have been disturbed and the information replaced by his new location.

When "not reported" occurs in a table such as sentence length or crime, it counts inmates for which the information had not been obtained by the time of the computer run. Some inmates, for example, will become unavailable for intake processing because of a trial on additional charges.

Tables A1-A8: Admissions

"New admissions" includes unsentenced inmates (presentence diagnostic cases and safekeepers) and prisoners newly committed by the court directly to prison (including to a "split sentence" of prison and probation). If the prisoner was already under parole supervision at the time he reappears in prison, he is not counted as a "new admission" for his reappearance (presumably for a parole revocation), even if he is being given a new sentence. Instead, he will be counted as a "re-entry". If a prisoner is released from prison upon successful appeal of his conviction and is again sentenced to prison upon reconviction, he will appear twice as a new admission for the same crime(s). The same is true for PSD's and safekeepers if they return to prison after sentencing.

Tables B1-B8: Separations

"Discharge" includes unsentenced inmates and prisoners who complete all of their sentence. A person who is paroled, revoked and then completes his sentence will appear twice on these tables. He will be counted first under parole releases and then as having been discharged.

"Parole" includes a special kind of parole called conditional release, which is granted mainly to those designated by the court as committed youthful offenders. It also includes those re-released as the result of the rescinding of a temporary parole revocation. Other categories of parole include those under the Fair Sentencing Act (even though these are mandatory) and special one-third paroles, even though these are not supervised by parole officers.

"Other separations" includes deaths, escapes, and court-ordered releases.

2. Outcome by how placed 56

F. Rule violations 57

Appendix: Definition of terms 69

HISTORICAL NOTE

Beginning with the 1986 annual issue, two additional Sections appear in the Abstract. The first of these consists of two tables of work release terminations. The second section is a table of rule violations.

Also beginning with the 1986 annual issue, data on inmates with multiple crimes are tabulated differently. For each such inmate, the crime carrying the longest sentence is the one chosen to characterize that inmate. The crime itself, its categorization as a felony or misdemeanor, and the county of conviction for that crime are used then to build the corresponding tables.

Appendix: Definition of Terms

"Sentence length" is the total consecutive sentence imposed by the court as of the date of the computer search which creates data for the Abstract. Each sentence length category (e.g. 1 to 2 years) includes sentences exactly matching the upper limit (2 years), but sentences equal to the lower limit (1 year) belong to the smaller category. The exception to this statement is the category 10 years to life: life sentences belong to the category life/death.

"Crime" (beginning with the 1986 Annual issue) is the offense possessing the longest sentence length, in the case of multiple crimes. Determination of felon/misdemeanant and county of conviction is also based on that same crime.

"Age" is determined at the time of admission or separation, respectively, for those tables. For the resident tables it is computed as of the period ending date for the report.

For the resident population tables the crime categories have been consolidated somewhat to conserve space.

Crime Category in "Resident" Tables	Corresponding Categories in "Admission" and "Separation" Tables
Homicide	Murder 1st degree, murder 2nd degree, manslaughter
Rape and sexual assault	Rape, sexual assault, and sex crimes miscellaneous
Other assaultive	Kidnapping and abduction, assault
Other public order	Abandonment and non-support, habitual drunk, others
Burglary, B&E	Burglary, breaking and entering
Larceny and auto theft	Larceny, auto theft
Forg., Checks, fraud, other property	Forgery, worthless checks, fraud, burnings, trespass

"Admitting location" is the prison unit to which the inmate was admitted originally. Thus, for a capture, it refers to his original reception center, not the first

unit he was taken to upon return to the Department of Correction.

"Separation location" is the prison unit where he was housed most recently as determined at the time of the computer run. In the following circumstances it is not actually the unit from which he was separated: if he was revoked from a parole or captured after an escape, the record of his actual separation location will have been disturbed and the information replaced by his new location.

When "not reported" occurs in a table such as sentence length or crime, it counts inmates for which the information had not been obtained by the time of the computer run. Some inmates, for example, will become unavailable for intake processing because of a trial on additional charges.

Tables A1-A8: Admissions

"New admissions" includes unsentenced inmates (presentence diagnostic cases and safekeepers) and prisoners newly committed by the court directly to prison (including to a "split sentence" of prison and probation). If the prisoner was already under parole supervision at the time he reappears in prison, he is not counted as a "new admission" for his reappearance (presumably for a parole revocation), even if he is being given a new sentence. Instead, he will be counted as a "re-entry". If a prisoner is released from prison upon successful appeal of his conviction and is again sentenced to prison upon reconviction, he will appear twice as a new admission for the same crime(s). The same is true for PSD's and safekeepers if they return to prison after sentencing.

Tables B1-B8: Separations

"Discharge" includes unsentenced inmates and prisoners who complete all of their sentence. A person who is paroled, revoked and then completes his sentence will appear twice on these tables. He will be counted first under parole releases and then as having been discharged.

"Parole" includes a special kind of parole called conditional release, which is granted mainly to those designated by the court as committed youthful offenders. It also includes those re-released as the result of the rescinding of a temporary parole revocation. Other categories of parole include those under the Fair Sentencing Act (even though these are mandatory) and special one-third paroles, even though these are not supervised by parole officers.

"Other separations" includes deaths, escapes, and court-ordered releases.
